LE PÉRISCOLAIRE EN FRANÇAIS | EXTRACURRICULAR IN FRENCH

Scientastic Saturdays

In partnership with one of Toronto's best bilingual schools!

Your child is curious and creative? Scientastic Saturdays offer a unique program to bring out his/her inner innovator in a real science laboratory where each child has a work station and elaborate science equipment appropriate for their age. All in **French!**

6 to 8 year olds develop a **liquid rainbow**, concoct **slippery slime** or build their own set of **planets** to name only a few experiments!

9 to 12 year-olds explore the principle of the **catapult**, suit-up as an **astronaut**, build their own **cars** and much more!

Two simple steps:

1. Book your child's **Scientastic Saturday** session
2. **EXPLORUM** leads a different experiment each week

Dates: Autumn 2018: November 3 to December 15 (except November 10) - 6 weeks

Winter 2019: January 12 to March 2 (except February 16) - 7 weeks
